

SHERRARD ACADEMIC FOUNDATION SCHOLARSHIP

ADVOCATING EXCELLENCE

Mission - To administer resources maximizing individual excellence in partnership with the Sherrard Unit #200 School District, we aim to do the following:

- Support student scholarships for post-high school tuition.
- Provide teachers grants for innovative teaching practices in the classroom!
- Coordinate a comprehensive alumni network.
- Develop resources to inspire academic achievement within the Sherrard School District.

The Sherrard Academic Foundation, a nonprofit charitable organization, was formed in 2007 to provide an avenue for alumni, area residents, and businesses to make a long-term, tax-deductible investment in our students, teachers, and community. Though the organization is charged with supplementing and promoting the successes of the Sherrard Unit #200 Schools, it works independently from the Board of Education of the Sherrard School District.

Through generous community aid, the Sherrard Academic Foundation has been able to support the district's students and teachers by providing added financial resources to advance educational initiatives consistent with its mission.

The generosity of our community helps us enhance the educational efforts of our school district's students, teachers, and administrators. We are grateful for your support.
