

**Establishing a
partnership
to inspire
legacy giving**

Let's Work Together to Create a Nonprofit Partner Fund

Your organization has a long-term vision for the future which includes financial stability. Your key supporters understand the important services and programs your non-profit provides the community and believes in your mission.

Creating a Nonprofit Partner Fund allows your supporters the opportunity to make a planned giving commitment to your organization.

How a Nonprofit Partner Fund Works

Your endowment gifts are pooled and invested with oversight from an Investment Committee and Board of Directors

An annual distribution is available to support your organization's needs

Your fund grows with additional gifts and market performance

How Your Nonprofit Benefits

The Moline Regional Community Foundation provides gift receipts and donor recognition specific to your organization

You receive regular reports on your fund activity

Eliminates the need for tax reporting and costly annual audits

Allows for a trustworthy and uncomplicated way to promote legacy giving to your supporters
